

# Load any start page configured using Configure Start Pages

1

## Configure Open Microsoft Edge With

Group Policy = **Not configured**

MDM = **Blank**

If you want to make changes:

1. Set the **Disable Lockdown of Start Pages** policy to not configured.
2. Make changes to the **Configure Open Microsoft Edge With** policy.
3. Enable the **Disable Locksown of Start Pages** policy.

2

## Configure Start Pages

Group Policy = *String*

MDM = *String*

### Example:

`<support.contoso.com> <support.microsoft.com>`

### **Version 1703 or later.**

If you do not want to send traffic to Microsoft, use the `<about:blank>` value, which honors both domain and non-domain-joined devices when it's the only configured URL.

### **Next Windows 10 major release.**

When you enable the Configure Open Microsoft Edge With policy with any option selected, and you enable the Configure Start Pages policy, the Configure Open Microsoft Edge With policy takes precedence, ignoring the Configure Start Pages policy.

3

## Disable Lockdown of Start Pages

Group Policy = **Enabled**

*All configured start pages are editable*

MDM = **1**
